Maria Droste- Pre-Novitiate: we began the campaign since 11th October 2020, through various activities, desiring to be part of this voice for our future. we had exposure to different talukas encouraging and motivating people in the villages as we participated in the releasing of posters on safeguarding children, human rights day and children’s day. Online IDG celebrations and the panel discussions awakened us to campaign more zealously in creating awareness among our friends and family.

As part of the campaign we prepared ourselves to understand the context by listening to the sharing’s of our sisters on the significance of IDG for us as Good Shepherds and our approach towards children, women and girls in our care. It enlightened us, boosted our energy, created curiosity to know more about our involvement in reaching out to the unreached. We as a community studied the Good Shepherd Position Paper on Girl Child. We were propagated to shift our mind-set to be a change maker wherever we are to co-create a better world.

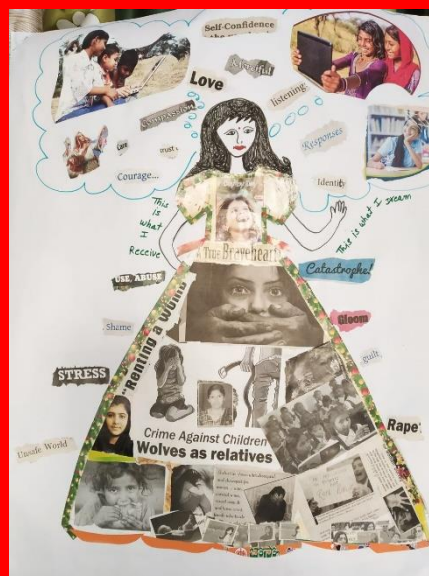

The Online Sharing of my story with inter-formation house opened up new pathways to feel blessed and privileged that we have been cared and loved by our family. The quiz helped us update our knowledge on various courageous women who were and are voicing individually for a better tomorrow.

While doing the collage, drawing and debate it opened our minds to a creative way of expressing our voice in solidarity with young girls, women and children out there who go through night mares due to the abuses and atrocities done by their own, friends, kith and kins’. We were also able to appreciate and acknowledge the hard work and efforts made by individuals and likeminded groups who raise voice with courage to be heard by the deafened world the value of a girl child.

The special prayer service brought us close to those young girls, women and children who have become victims of abuse and violence for the very nature of being born as a female.

The Movie on Beti bachao beti padhao stirred our hearts to commit ourselves to work for the empowerment of women and girls. We ended the day with grateful heart for being a girl and having awakened through this campaign to work more fervently and be a change maker in our environment.

All are born with a purpose but we girls are born as the PURPOSE to create a Safe World.... Let’s Realize our Worth.!
